TURKS AND BULGARS CRUSHED IN PALESTINE AND MACEDONIA

SUCCESS OF ALLIES IN MACEDONIA IN CAMPAIGN AGAINST BULGARS HAS BEEN LITTLE LESS SWEEPING THAN THAT IN PALESTINE. BULGARIA MAY SOON BE DRIVEN OUT OF THE WAR BY FRENCH AND SERBIAN ADVANCE.

TWENTY-FIVE THOUSAND TURKS TAKEN IN ADVANCE OF MORE THAN SIXTY MILES LAST AVENUE OF ESCAPE FOR TURKS SEIZED

FRENCH AND BRITISH MAKE GAINS OF VAST IMPORTANCE IN ST. QUENTIN DRIVE

French Seriously Menace St. Quentin by Taking Venduill, Nine Miles Southeast and Driving on to the Oise. One by one the Outlying Fortifications of Germans Near Pivotal Points Are Falling to the Allies.

LONDON, SEPTEMBER 23.—(Associated Press Cable)—Reports from the Palestine front this afternoon indicates none of the Turkish forces of at least 40,000, trapped by the British, through the seizure of the last of the passages of the Jordan, can possibly get away.

TREMENDOUS POLITICAL RESULTS FOLLOW IN WAKE OF VICTORIES

LONDON, SEPTEMBER 23.—(Associated Press Cable)—Present operations in Palestine and Macedonia may have political results far outweighing the military objectives gained.

There have been persistent reports that Bulgaria and Turkey are ready to retire from the war and the dynastic situation in Bulgaria is said to be such that King Ferdinand virtually retires from active administration sensational developments may come at any time.

SERBIANS MAKE CAPTURES

LONDON, SEPTEMBER 23, 5:20 p. m.—(Associated Press Cable)—The Serbians have captured between 9,000 and 10,000 prisoners and 120 guns, the Evening Standard says it learns.

(By the War Editor of The Associated Press)

Disaster threatens the armies of Bulgaria and Turkey on the battle fields of Macedonia and Palestine. Allied forces are pressing with vigor their successful campaigns against the two lesser members of the Central Powers.

In Palestine General Allenby virtually has wiped out the enemy forces opposing him. He has captured more than 25,000 Turks and 260 guns, and continues to push forward between the Jordan and the Mediterranean coast. The last avenues of escape to the Turks west of the Jordan have been seized by the British.

Allied successes in Macedonia have resulted in the driving of a breach between the eastern and western flanks of the German-Bulgarian forces, whose main lines of communication have been cut. The Bulgarians are in full retreat between Monastir and the Vardar river.

The important railway lines from Uskub to Saloniki and from Gradsko to Prilep have been severed and the enemy forces around Lake Doiran and north of Monastir are in danger of being outflanked and captured.

On the western front the British and French are progressing successfully in the encirclement of St. Quentin. The French have seriously menaced the Germans by taking Venduill, nine miles southeast of St. Quentin.

German and Bulgarian reinforcements thrown in to check the Serbian advance toward Uskub have been forced to join in the retreat of their comrades by the impetuous Serbs, who now have advanced over 40 miles since September 15th. Prisoners captured from the enemy are being added as the advance continues. The salient driven into the Bulgarian line at Sokol has been widened until now the allies are advancing on a front of nearly 50 miles, stretching from east of Monastir to the Vardar river.

About St. Quentin the operations are centered on Venduill and Vendhueille. The French after capturing the town and fort of Venduill pushed on to the Oise river and as a result have driven a sharp salient into the German defenses between St. Quentin and Laon. Venduill is one of the most distant outposts of Laon and is one of the most important points on the Hindenburg line between Laon and La Fere.

FRIGHTFUL CONDITIONS PREVAILING IN RUSSIA

Former Leaders Are Murdered at Night in Cellars by the Hundreds.

(By Associated Press Dispatch.)

Washington, September 23.—Stories of wholesale slaughter of representative people and former officers, "because they are dangerous to the Soviet," are related in further accounts reaching the State Department today of the reign of terror in Russian cities against which the American government has called upon all civilized nations to protest.

All persons coming out of Russia are said to bring reports of appalling conditions. One detail is that the former officers are shot at night in the cellars, the guns being muffled with silencers.

NATION'S LEAGUE MADE IN GERMANY NOW BEING AGITATED

Erzberger Reichstag Member Tries Framing a Constitution.

Champion Piece of Effrontery of the Whole Long List.

(By Associated Press Cable)

Amsterdam, September 23.—A draft of a constitution for a league of nations, worked out in detail by Mathias Erzberger, member of the German Reichstag, is published in Berlin papers.

The first section in this constitution draft dealing with the organization of such a league says: "Any sovereign

state can enter the League which shall be considered to have been formed when the following powers are among those who have announced adherence: Germany, Great Britain, France, United States and Russia."

The Hague would be the seat of the league and there international bureau would conduct its business. The bureau would be controlled by a permanent administrative council consisting of the representatives of the Federated Powers with the Dutch foreign minister as chairman.

Dealing with fundamental laws the second section says:

The League shall guarantee the territorial possession of each federated state as well as undisturbed possession of colonies.

"Each state would be independent in the conduct of its internal and foreign affairs within the limits of the League's constitution."

ITALIAN TROOPS PRESSING HARD AFTER BULGARS

Advance in Macedonia More Than Seven Miles on Average

(Associated Press Cable)

Rome, September 23.—The Italian troops in Macedonia have advanced an average of more than 7 miles in pursuit of the Germans and Bulgarians and have taken 16 villages, says the report from the war office today.

Washington, September 23.—Ten per cent of the Fourth Liberty Loan subscriptions will be required on application, instead as for past loans, the Treasury Department announced today.

Twenty per cent will be due November 21st, 20 per cent December 19th, 20 per cent January 1st and 30 per cent January 30th.

BELIEVED U. S. SHIP "GOT" SUB

Large German submarine Lying in Wait Off Atlantic Coast Sunk.

Thirty-four Shots Fired at Sea Pirate Captain Certain Hit Was Scored.

(By Associated Press Dispatch.)

An Atlantic Port, September 23.—A large German submarine which was lying in wait for trans-Atlantic vessels 58 miles off the American coast, is believed to have been sunk by the United States Shipping Board steamship Nanzemund.

The encounter according to the Nanzemund's captain began at 12:45 p. m., September 19th, and lasted 45 minutes. Thirty-four shots were fired by the steamer, one of which, fired at a three-mile range, was followed by an eruption from the submarine of a cloud of black smoke mingled with splinters. The captain and his men are certain they scored a damaging hit.

MORGAN'S DAUGHTER THREATENED IN PLOT

MRS. GEORGE NICHOLS

Mrs. George Nichols, daughter of J. P. Morgan, the financier, was told in attempted blackmail letters, written by J. B. Thorn, a janitor of a Lansing, Mich., newspaper, that she and others of the Morgan family had been inoculated with deadly disease germs. Thorn has been arrested on the charge of attempting to extort money from members of the family of J. P. Morgan. For almost two years Thorn, it is said, has been trying to get \$20,000 from Mr. Morgan and his daughter, Mrs. Nichols, of Glen Cove, L. I., through letters written from Lansing, Mich. The writer said that the entire family was inoculated with a disease germ which would cause their deaths in three years.

British, However, Watch Move Carefully for Possible Developments.

(By Associated Press Cable)

London, September 23.—Although reports of a German political crisis arising from the supposed movement for parliamentarization of the government are printed at greater or less length in the papers here, and the situation is watched with mild interest for any possibilities it may contain the whole thing is mostly regarded as an integral part of the German peace offensive.

MANY OF BEST AIRMEN OF HUNS HAVE BEEN LOST

(By Associated Press Cable)

Amsterdam, September 23.—Germany's losses in the air now include many, if not most, of the star pilots whose names during the last year received continuous advertisement in the German official statements.

Fourteen of the airmen credited by the German reports credited with the most numerous victories have been killed or captured.

LT. PAUL H. HUGHEY BRINGS DOWN FIRST HUN AIRPLANE

Makes Daring Drop of 10,000 Feet After Boche Plane That Was Chasing Yankee Flyer, and Sends Hun Crashing 7000 Feet to Earth.

Takes Part in Two Thrilling Battles in Two Days, Having Plane Damaged by Hun Bullets.

Lieutenant Paul H. Hughey, son of Mrs. J. W. Hughey, of this city, has brought down his first German airplane. To get the Hun it was necessary to make a nose dive of 10,000 feet with his machine gun spouting bullets at the Hun who was in a similar dive endeavoring to bring down an American plane. The Hun fell 7,000 feet after being winged.

Lieutenant Hughey is a member of the 91st Aero Service Squad of the United States Air Service, and the story of his thrilling battle with the Hun, as well as a hard battle on the previous day, is told in his own words in a letter just received by his mother in this city. The letter follows:

September 4, 1918.

Dear Mother and all:
I have had two big days since my last letter to you. Monday we had a big fight with eleven boches. They jumped four of us quite a ways out in Germany and all we could do was trust to luck and fight them. The best we could tell me was that of our own lines. Well, we did do a little. Saw one boche go down in flames and another fall out of control. We all four got back but our machines were pretty badly shot up. One plane had 20 bullet holes; another had a wing shot up pretty bad, one got out without a hole and I gathered in five. We were all mighty lucky to get back. The thick of the fight happened quite a ways back of the lines. None of us knew who really got the boche but we all four took credit.

Yesterday was my day off so didn't do much. This morning five of us started out but only four were able to cross.

We were about 8 miles back of the German lines when three boches dived out of the clouds on us. One got under the tail of one of our machines which was flying to the side of me. He went into a dive, the boche after him. I turned and dived on the boche that was following him down. I saw my tracer bullets (which look like little balls of fire going through the air) entering his machine and in a few seconds down went Mr. Boche to the ground. We were about 16,000 or 17,000 feet up when the fight started and when it was over was about 7,000 feet and just a little behind the lines. If they saw it from the trenches or one of the balloons saw the boche fall I will get credit for it, otherwise, I won't. Here's hoping they saw it for it's no easy job to bring down one of those birds and credit from air service hq's, means

a lot, even though I know myself I got him.

I will be able to find out in two or three days. I don't think this is the first boche I have put a few bullet holes in but the first I am sure of. We lost one of our planes on this trip or at least he hasn't been heard of since and we have been back quite a few hours.

Those were my two most exciting trips since I have been flying here, but I don't want to go through the same thing very often. Don't think I could be so lucky again.

I guess this is about all for this time. Am O. K., and of course feeling fine over my victory.

Love to all,
PAUL.

RED CROSS ACTIVITIES

What Is Cellucotton?

Red Cross chapters in the Lake Division are being supplied with Cellucotton to be used in the making of irrigation pads.

This is one of the many interesting products brought to light by the efforts of war and the need for conservation.

Instead of "old-fashioned" absorbent cotton, this new absorbent, manufactured from chemically pure wood pulp cellulose, is being widely used by the Red Cross as well as the War Department and by French, Italian and Canadian war organizations.

In shipping form, it bulks three and one-half to four times as much as does absorbent cotton, and absorbs five or six times quicker than the best grade of cotton, as authoritative tests have demonstrated.

While it is practically sterile in the original shipping form, a great advantage for use in emergency cases, it can be sterilized the same as absorbent cotton without deleterious effect.

The great advantages Cellucotton possesses are absorbing qualities and distribution. It can be taken off in a thinner layer, if necessary, than absorbent cotton, and it is possible, therefore, to make many more Carrel dressings in the time it formerly took to make them using the other cotton, because it so readily permits of separation in sheets.

Local Chapter Receives Cellucotton

Surgical Dressing's workers have been handicapped in getting out their assigned quota because of the lack of cotton, but last Thursday a supply of Cellucotton was received and there is now plenty of material.

Large Number of Workers Needed

All women who have been doing surgical dressing work or those interested are urged to be at the Surgical Dressing's room in the Y. M. C. A. building Tuesday, Wednesday, Thursday and Saturday and give all the time they possibly can to this necessary work.

The monthly quota for Fayette county is 1,000 pads and 1,000 wipes. Having been held back by having no material, it is all the more important that the work is pushed rapidly now.

Alaska Holds the Record

Returns are sometimes a little slow in getting in from Alaska, but they usually are worth waiting for. A report has just been received on the sale of the two pounds of White House wool apportioned to the far territory in connection with the second war fund drive by the Red Cross. A check came with the report, and it was for the sum of \$5,881.75, which was the price the wool

Red Cross News Grenades

Thousands of Armenian refugees at Port Said and 300 Russian refugees at Jerusalem, and homeless families from Jerusalem and its environs, are now being cared for by the American Red Cross.

Losing clothing and even shoes, captured American Army and Navy Officers are often reaching German prison camps in such a condition that the American Red Cross has been obliged to establish a tailor shop in Berne to supply them with proper uniforms.

A donation by the Red Cross enabled about 1,000 wounded "poilus," now convalescing in a hospital in France, to partake of a course dinner. The gratitude of the brave fellows was expressed in the red, white and blue illustrations on the menu card.

Members of the American Red Cross commission for the prevention of tuberculosis in France, who have also been aiding the French authorities to solve the infant mortality problem, are to take a prominent part in the observance of "Children's Month" in October.

VETERAN ANSWERS FINAL SUMMONS

James S. Armstrong, war veteran and respected resident of this city,

died Saturday evening at ten minutes of nine at his home on South Sycamore street. For some time Mr. Armstrong has been in failing health, and his death, while causing much regret, was not unexpected.

His war record is one well worth recalling.

Jas. S. Armstrong was a member of the 89th O. V. I. At Chickamauga this regiment was in Thomas Division, which held Snodpass Hill on Sunday, thereby saving the Union army. On Sunday night, September 20, 1863, Thomas withdrew his division, falling back to Chattanooga. The 89th Ohio had been placed on guard on the slope of Snodpass Hill, but on the withdrawal of the division, were not notified. On the early morning of September 21 the 89th Ohio were taken prisoners. Mr. Armstrong during the confusion that followed walked away and was not noticed by the enemy. He made his way safely to the Union army. His death occurred at exactly 55 years from the date his regiment was taken prisoners.

Mr. Armstrong leaves a widow only.

Funeral services will be held Tuesday at 2:00 p. m., at Memorial Hall, Rev. Neal in charge. Burial will be made in the Washington cemetery.

TWO ADDITIONAL FAYETTE COUNTY MEN ARE KILLED

Arley Griffith and Will Deney Killed in Action While Fighting Bravely Against Hun Hordes. Names Appear in Today's Casualty List.

Two more brave Fayette county soldiers have given their life's blood while fighting nobly. They are Arley Griffith and Will Deney, both listed as being from this city, and both names being carried in Monday's casualty lists.

Private Arley Griffith was a son of Henry Griffith, who formerly lived at Bookwalter, this county, but who some three months ago moved from Washington avenue, this city, where he had lived for quite a while, to Waverly, Ohio.

Private Griffith enlisted in M Company but later was transferred to G Company, of the 18th Division, in which unit he was fighting when death came to him some weeks ago.

Private Will Deney enlisted in G Company, of Greenfield, and his parents are said to reside in Jefferson township, this county. Thomas Seymour, a relative, of this city, was given as his next of kin, and recently received notice of the young man's death.

While the date of the death of the two men is not announced in the casualty list, it is understood that both were killed in action while fighting in the Marne salient, driving the Germans back to the Vesle river.

PROMINENT MAN CALLED BY DEATH

Business associates and personal friends in this city of Mr. Robert D. Alexander, chairman of State Tax Commission, have learned with regret of his death, and will be interested in reading excerpts from the following brief of his life, in the Chillicothe News-Advertiser:

"Robert D. Alexander, chairman of the State Tax Commission, died at the city hospital shortly after three o'clock Friday afternoon. Death came, after several weeks' illness. Robert D. Alexander was born in this city February 3, 1879, the son of Robert W. S. and Anna Brown Alexander, both of whom survive him.

He was a Democrat in politics and began to take an active interest in local politics as a very young man, rapidly becoming one of the influential factors in his party, especially among young men.

He was triumphantly elected to the office of County Auditor and took office in January, 1909.

After leaving office in January, 1915 he went into the brokerage business and was making a brilliant success when, in the spring of 1917 he was appointed by Governor J. M. Cox as chairman of the State Tax Commission.

Robert Alexander was always interested in local matters, outside of politics, and was a hard worker for the community. He served as secretary of the board of trustees of the inter-county tuberculosis sanitarium, and had been greatly interested in the plan from its first inception. It was largely owing to his energy that the plan came to accomplishment. To him, also it was very largely owing that Camp Sherman was located here. He was the first to suggest that Chillicothe enter the field as a candidate for the camp site, having learned early that one of the great war camps was to be located in Ohio, and he never ceased working for it until the decision was made in this city's favor."

TAKEN TO HOSPITAL

Mr. Caspar Timmons, of New Holland, was taken to the Grant Hospital, Columbus, Sunday evening, for special treatment. He spent some time in the Grant Hospital several months ago, and has never fully recovered.

MEMOIR

Amy Prue Taylor, eldest daughter of Benjamin F. and Della Taylor, was born in this city, October 7, 1888 and died at her home here, Tuesday September 17, 1918.

Her death was the second break in the family circle; the father having died in 1905.

With her in her last illness, were her mother, three sisters, Lulu, Anna Grace, and Mildred, a devoted aunt, Mrs. Lucy A. McClain and a cousin, Mrs. William Weyandt; and all that loving hearts and tender hands could do, was done by these faithful attendants, but human care was unavailing and with the coming of dawn her spirit passed into the eternal morning of the Great Beyond.

It is not often given us to walk by the way, with a spirit so serene as this which has passed, so quiet and unassuming that only those who came into daily contact with her, knew the beauty and worth of her character.

Although she had borne the burden of ill health for years, her nearest friends scarcely realized that she suffered; so cheerful was her brave smile and so steady her quiet voice; and she entered the Valley of the Shadow, as she had lived with the quiet fortitude and the serene faith of a strong soul.

In the little home circle she was the friend and companion of her mother, the counsellor and guardian of her sisters and the steadfast, loyal comrade, to all her neighbors and friends.

Her devotion to her family, her thought and service for her friends, will ever remain a precious memory, to those who have known and loved her.

When but twelve years of age, Prue united with Grace M. E. Church during the pastorate of the Reverend A. H. Norcross and served her church with the same devotion and singleness of purpose, that she displayed in every act of her life. "The flower of a blameless life" might well be the epitaph for this young life.

She graduated from High School with the Class of 1908 and strong ties of friendship were formed there, with teachers and classmates, which death cannot break, but only interrupt for a time.

After her graduation, she entered upon that life of service to which she gave a full measure of devotion. Teaching to her, was more than a profession, it was her life; and the love of her pupils and fellow teachers, shows that she did not spend her life in vain.

With all the wearing toil of her daily life and the added strain of ill health, the clear morning smile never failed to greet the little children who came to her each day and the gentle voice never faltered in its efforts to direct them aright.

In the quiet seclusion of the school room, her gentle presence was a benediction to the little lives which came under her influence.

Happy are the little children who eat at her feet, during her years of service, for surely her wisdom came direct from the Great Teacher and she blessed all the lives that she touched.

The Situation

While the gains of the allied armies on the western front, as we have learned to know that line which stretches from the channel ports of Belgium through France and Lorraine and, now, Germany to Switzerland, have not summed up so large in territory captured as they did during July and August, the real progress made has been equally, if not more important.

The allies have demonstrated, conclusively it seems, even to the Germans, that the Hindenburg line, boasted by the Huns to be impregnable, can be crossed, whenever and wherever, in the wisdom of Marshal Foch and his associate commanders, the allied armies attack.

The mastery of the entire vast theater of war is evident in the inability of the Germans to take the offensive, even in local operations.

Since the offensive was launched by the allies at Chateau Thierry after the Huns' attacks had been halted, the allies have set the pace and directed the entire game of war—every move.

Every move made on the vast checker board of war since Chateau Thierry has been directed by the allies. Whether in Belgium, France, Italy, Macedonia, Palestine, in far-off Siberia or in European Russia, it matters not, it was the wizardry of Foch that directed the move.

That in itself—the retaining of the initiative which is constantly growing more powerful—is a tremendous gain. The campaigns in Macedonia and Palestine have been so sweepingly successful as to force themselves to the forefront as among the major operations of the war.

Serbia's freedom and disaster to Bulgaria are among the very probable developments of the near future.

But above all the pronounced inability of the German armies to rally, even in their own immediate campaigns in France, Belgium and Lorraine, with four tremendous allied armies pounding hard at the gates of Germany, with those armies growing more powerful every hour and the anxiety of the German people approaching rapidly to the breaking point.

Germany must rally soon now or the great retreat to the border will be on and when winter slows up the active battling in the field the Hohenzollerns and the Hapsburgs will be compelled to face, during the winter months, a peace offensive not of their own launching and one which they will have much more difficulty in overcoming than the people of the allied nations have experienced with those "made in Germany."

Holland's Appeal Refused

Holland's appeal to the allies for foodstuffs which must be transported across the pirate-infested ocean in ships of the allied nations now taxed to the limit in carrying men, food, arms and munitions necessary to the success of their armies, is to be denied so long as Holland permits half a million tons of shipping capacity to remain unused—tied to the docks in her harbors.

For the allied nations to sell food to Holland at all, in view of their own requirements, is certainly about all that could be asked of them, but to deliver it to Dutch ports in allied ships is too much. That means that not only must the allies risk the destruction of their ships by the pirates, but that needed ship capacity will be diverted from war work.

Opportunity

Once again the opportunity to secure labor employing industries for Washington knocks at our door.

Our citizens should not allow the knocking to go unheeded, they should not wait for a second call. This is a prosperous community as we have stated before. It's a good place to live, but we must avoid drifting into a state of smugness which means inevitably a drying up and a hardening of the arteries of trade and eventually business paralysis.

No community can indulge in that dream of self-satisfaction and absolute contentment which, if we but have the courage to recognize it, is that dangerous malady—smugness, without paying the penalty financially.

We must avoid that here.

Not only that, but we should be doing our part in these stirring times by consecrating our site advantages and opportunities to the requirements of the time. We all know this community has the ability to do big things in the way of manufacturing as well as in the way of agriculture. Our farmers produce tremendously. We of the city must produce our full share of the needed articles which must be manufactured. We must not allow a machine to remain idle, a factory building unoccupied or a home tenantless. Other centers are crowded. The nation wants our help and we want to give it for our own good and because it is due from us.

THE QUESTIONNAIRE

Please promptly answer and with care.
The queries in your Questionnaire: Divorced, or single, if married tell; The date when tolled the fatal bell; Give age, condition, weight and race.
And name each blemish—foot to face;
If lame or halt, knock-kneed, or blind.
Please fully state before it's signed.

If you've had wives, please state how many.
If not just why you haven't any;
If living with your wife's relation.
Then state who rules the home plan-tation;
Does man-in-law pay your house-rent? If so, please state to what extent.
Please answer, sir, with utmost care
Fore sending in your Questionnaire.

If you've a wife with you to bunk,
State when your clothes went in one trunk;
More, give the total of your boodle,
And state what's wrong with your poor noodle;
Have you flat feet or wheels in head?
Are your beef cattle all corn fed?
How have you lived for twelve months past?
If preacher, state where you starved last.

Have you your last year's taxes paid?
Are you supporting man (or maid)?
If so, is she your wife's relation?
(Be careful here with explanation.)
Have you been trained for war's dread strife?
Aside from battles with your wife?
Can you talk Kansas, French or Greek,
And how much English do you speak?
When all have answered and with care,
The queries in the Questionnaire,
Then Uncle Sam will be much wiser,
And will proceed to whip the Kaiser.

WELL KNOWN JUDGE MAKES FINE ADDRESS

Judge Hoffman, Head of the Court of Domestic Relations in Cincinnati, delivered a masterly address at Grace M. E. Church, bringing from his wide experience in Juvenile Court life, facts vitally interesting and informing.

In speaking of the fact that children can not be treated as criminals, he laid stress upon the need of saving the children and impressed the importance of the probation officer in every community.

Judge Hocman related the story of two Cincinnati families, whose descendants have already cost the city \$4,000. Statistics show 91 per cent of children saved where there is a probation officer.

SPANISH INFLUENZA HERE SAYS DOCTOR HUNDREDS OF CASES

The Spanish Influenza—another name for the old fashioned LaGrippe, is at work in Fayette county, declared a local physician, Monday afternoon, when the epidemic of lagrippe that is now sweeping the community was discussed.

The present form of the lagrippe is very contagious, and in some instances seven members of one family are ill with it.

The epidemic is widespread, 500 cases being reported in and near this city, and other cases in virtually every section of the county.

The fatalities are very few, although for two or three days the grippe makes the patient very ill with the usual sore throat, fever and aches.

SUDDEN DEATH OF MRS. NANNIE DUFF

Mrs. Nannie V. Duff, widow of the late A. C. Duff, answered the eternal summons at the age of 56 years, at her home on the Waterloo pike, Sunday morning at three o'clock.

The death angel came with appalling suddenness, having given no forewarning of approach, and in its wake left heart-breaking desolation in the home and a sense of loss to a shocked community.

Since a young girl Mrs. Duff has suffered from asthma, which seriously impaired her health, but had seemed as well as usual.

Only her older son, Roscoe, was at home when she was taken with the attack of the heart, which ended fatally. The younger son, Virgil, left Saturday for Chicago, to enlist in the navy, and there is no doubt that the anxiety felt by Mrs. Duff concerning her two boys, both in the draft age, one nineteen, the other twenty-one, had told upon her.

The shock and grief to the two sons is overpowering and is deeply shared by the relatives and many friends.

One sister, Mrs. Dora Dick, of Chicago, and four brothers, John Noble, of this city, Chas. Noble, of Clarksburg, LaFayette Noble, of New Holland, and George Noble, of Bluffton, Ind., survive.

It is expected that the sister, Mrs. Dick, will accompany Virgil back from Chicago, tonight.

The funeral services will be held Wednesday morning at 10:00 o'clock. The body will be interred in the mausoleum.

PROBATION OFFICER FOR FAYETTE COUNTY

The County Commissioners Monday morning voted an appropriation of \$800 for a trained Probation Officer for Fayette county. This is a forward movement for the community that will mean a great deal in its development in the future.

It is not only a humanitarian step but it is a great economic step. It is expected to reduce the number of cases that pass through the juvenile court, and mean family rehabilitation and adjustment of domestic relations.

Many people think that an untrained person, one who has intelligence, aptitude, diplomacy and social qualities can act as a probation officer, but this is no longer the case. A trained social worker, one who has taken the probation course in the schools for social service, is the person competent to meet the present demand. Judge Hoffman of Cincinnati, who spent the day in this city Sunday emphasized this point in the Methodist pulpit.

In the afternoon Judge Hoffman met informally representative lawyers, citizens and social workers of the town and impressed upon them the necessity of having a trained woman to take up this most important work.

EIGHTY-THIRD DIVISION MAN WOUNDED IN HAND

C. B. Stroud of this city has received a letter from his son, Ralph Stroud, of the Eighty-third Division, stating that he had been wounded in the hand while in action in France.

So far as known he is the first Fayette member of the Eighty-third, which was trained at Chillicothe, to be wounded.

When Children Start to School.
School opens at a time of year when the change of seasons is likely to cause coughs, colds, croup, hay fever and asthma. Prompt action at the first sign of infection may keep children in prime good health and help them to avoid losing time. Foley's Honey and Tar is an ideal home remedy. Blackmer & Tanquary. Adv't.

WOMEN OF COUNCIL NATIONAL DEFENSE HOLD BUSY MEETING

Important Work Is Reported and New Projects Taken Up at an Enthusiastic Meeting of Women's Committee Held at Y. M. C. A. Saturday Afternoon.

The Semi-Annual meeting of the Woman's Committee Council of National Defense, held at the Y. M. C. A. building Saturday, marked an epoch in the growing interest of this splendid organization.

A hundred women representing the fully organized townships, both chairman and workers, were in attendance where Mrs. Daniel H. Van Winkle, County Chairman, called the meeting to order, and the usual reports followed.

The chairman presented three important matters; first the plan for collecting clothing for the destitute Belgians and French.

A work which is being taken up by the Woman's Committee at the request of the Red Cross:

Second the work of procuring the names of all soldiers who have gone out of Fayette County for the benefit of the Civilian Relief department of the Red Cross and third the opportunity to procure the pin recently designed for the Woman's Committee of National Defense.

The first speech of the afternoon was given by Mrs. Mina Rowe Morris, Chairman of Educational Propaganda department who forcefully reminded the women, among many other excellent points made that although the Allies are sending daily reports of victory we are a long way from Berlin and the food situation is still a problem.

We have more men in France than ever before but we must conserve more than ever during the coming winter. Although our crops are good we must build up a reserve that the situation may never be as critical as it was at one time last year. Only the British comptroller of food knows how near to starvation and defeat we were.

An exceptionally able speech was made by Mrs. Geo. Bruce Franklin. She talked upon Child Welfare as a War Activity—bringing out among other points, the organization and work of the Children's Bureau.

The work of this Bureau is of many years standing, but owing to the high cost of living the use of many institutes, the general conditions of the times etc., the government decided that Child Welfare was a war activity therefore it placed this work under the direction of an organization, the Woman's Committee of the Council of National Defense, which does nothing but authorized government war work. The Women's Committee of the

Council of National Defense did not commence active work in Fayette County in time to get their organization named on the War Chest Fund, but it is the custom in other counties to finance this organization from the War Chest, where one exists, as it is understood the War Chest in Fayette County was to take care of all authorized Federal war activities the Woman's Committee are sending out petitions, that the people may signify their willingness that this organization may be financed from the War Chest, rather than raise a new fund for this purpose.

CELEBRATION IS LARGELY ATTENDED
The Emancipation celebration, held by local colored citizens, at Memorial Hall, Sunday night, was largely attended, and patriotism ran high, the hall being packed by an enthusiastic audience.

Addresses were made by Dr. E. W. Curry, president of the Curry College, of Urbana, Ohio; Hon. C. A. Reid and M. S. Daugherty. Joseph Foster also spoke briefly.

Rev. J. M. Thompson presided and the choir of the two colored churches furnished patriotic music for the event.

The speeches were filled with patriotic utterances which drew a hearty response from the large audience.

SUPPLY SYSTEM IN FRANCE IS JOY TO SEC'Y BAKER

(American Press)

Paris, Sept. 23.—Secretary of War Baker, who is in Paris, made the fol- lowing statement regarding his visit to France:

"I have just completed an inspec- tion of the ports and am now making a thorough inspection of the service of supplies from here and later I am going to the recreation areas and thence to general headquarters. I have been in England and return there in a week or 10 days, return- ing again to France from England, and will spend some time with our combatant troops in the American sector, after which I will sail for home. Six months have elapsed be- tween the times of my two visits to the ports and the service of supply. The progress which has been made in building up the great facilities upon which the subsistence and sup-

ply of the army rests is amazing. From the docks to the central stor- age facilities enlargements have taken place everywhere on a scale which beggars description."

Two successful raids were made by Americans on the German lines northeast of St. Mihiel. Thirty Ger- mans were captured in the raids. Barrages preceded the raids.

Patrols from the region of Hau- mont reported that at least 40 Ger- mans were killed or injured. Other patrols from the Charey region esti- mated that the barrage killed at least a score of Germans.

The prisoners taken southeast of Charey were machine gunners, the Americans capturing two heavy ma- chine guns. At Haumont the Ger- mans were captured in dugouts, where they had taken refuge from the stiff American barrage. The Germans answered with their artil- lery along the American line.

A unit of the American raiders en- tered Haumont, where the Germans had been using a church tower as an observation post. Sharp fighting took place in the streets of the village, the Americans getting the better of the Germans and obtaining the informa- tion desired. They then returned to their own lines.

DEATH BLOW DEALT TURKS

(American Press)

London, Sept. 23.—In less than four days, British troops operating in Palestine have swept forward in the center between the Jordan and taken famous Nazareth, while their wings closed round in a swift enveloping movement and nipped within the maw of the great pincer all the Ottoman forces in the coastal sector, the plain of Sharon, the hill region in the center and also the western Jordan valley. Meanwhile to the northeast the friendly Arab forces of the king of the Hedjas have cut all railway communication in front of the fleeing Turks, and are standing a barrier to their escape by way of the eastern plains.

More than 18,000 Turks had been captured by the British and guns in excess of 120 had been counted when the last reports from General Allenby were received. In addition great quantities of war stores had been captured and still others had not been counted owing to the rapidity of the movement. It is not improbable that within the bag, the strings of which have been taut, closing the mouth, thousands of Turks are enmeshed. Many of those already made prisoner, fleeing in disorder, literally walked into the hands of the British, not knowing their lines of retreat had been cut off.

Although the Turks at some points offered considerable resistance to the British, at no point were they able to stay the advance, even on the famous field of Armageddon, which the British cavalry swept across and occupied Nazareth to the north. The losses of General Allenby are described as slight in comparison with the importance of the movement carried out.

In Macedonia the Italians have joined the fray with the British, French, Serbian and Greek troops and are hard after the Bulgarians and their allies, who are being driven northward through Serbia. Between the Cerna and Vardar rivers, although the Bulgarians and Germans are sending up reinforcements, the allied troops have continued their pressure. The Serbians west of the Vardar river have crossed the Philae-Histib road at Kavadar, which constitutes an advance of more than

25 miles into their once held territory. To the east of Monastir the Italians have begun operations in the famous Cerna bend and have taken several positions, while between the Cerna and the Vardar the French also have met with success.

In France and Flanders, where there has been any fighting rising in importance above patrol encounters the British, French and American troops have kept the upper hand and advanced their respective lines. On the French front the British, north of the Scarpe river, advanced their line on a two mile front, while east of Epehy, lying between Cambrai and St. Quentin, and at several other points on this sector in strong fighting they captured German positions. On that part of the front held by the French there was little activity except by the opposing artillery, which at times was heavy.

On the Lorraine front the Americans have carried out two successful raids against the Germans and taken prisoners. In addition some casualties were inflicted on the enemy. Several guns also were captured.

WILL MAKE HEADWAY IN CUTTING CORN

If the weather man's promise of good weather continues during the present week there is every reason to believe that thousands of acres of Fayette county corn will be placed in the shock, and that many thousands of acres of wheat will be sown on the ground from which the corn is removed.

Many farmers have refrained from sowing their wheat until the danger of damage by grasshoppers is over, also to guard against activities of the wheat pests which ordinarily attack the earlier sown wheat.

OHIO ENDEAVORS TO BAR INFLUENZA

(American Press)

Columbus, Sept. 23.—The state health department has called on all health officials in the state to co-operate with it in collecting information and in restricting spread of influenza, which has made its appearance in the east and threatens to become epidemic over the country unless thorough preventive efforts are made at once.

A federal inquiry for information as to possible outbreaks of the disease came in a telegram from Surgeon General Rupert Blue of the United States public health service, who also called attention to the serious interference with war production which would be caused by epidemics in industrial centers.

State health officials notified all local officers of the federal request and asked assistance of them and physicians in their communities. These measures to be employed in controlling influenza were recommended:

"As influenza is spread directly from person to person and is most contagious in early stages, a patient should stay away from public gatherings and off public conveyances, and should avoid contact with well persons. For his own good, as well as for the protection of others, he would do well to remain in bed during the feverish period. A well person can guard against the disease by avoiding crowds and persons having catarrhal symptoms."

CLINTON TO HOLD WAR CHEST DRIVE

At a recent meeting in Clinton county it was decided to conduct a War Chest Campaign in the not distant future, those in charge of the various campaigns deciding that one big drive for a War Chest fund from which all demands could be met was the proper solution to the problem of furnishing funds for the various purposes.

Certain-teed

Roofing

Certain-teed renders a war service.

Certain-teed saves war supplies, because it is made of materials which have no use in war products. It serves war needs because it provides our armies, and peoples everywhere, with efficient, economical roofing.

Certain-teed saves war transportation, because it is so compact that it takes minimum car space, and so easy to handle that it requires the minimum time to load and unload. Certain-teed saves war labor. It can be laid in less time than any other type of roof; and no skill is required—anyone who will follow the simple directions that come packed in the center of roll can lay it correctly.

The durability and economy of Certain-teed are recognized the world over, as proved by its enormous sale. It is now the standard roof

for factories, office buildings, hotels, stores, warehouses, garages, farm buildings, etc.

Guaranteed 5, 10 or 15 years, according to thickness. Sold by best dealers everywhere.

PLAN GUARD RAIL ON COURT HOUSE STEPS

Following recent accidents on the much-used south steps of the court house, due to persons slipping on the steps, particularly when they are wet, and also to assist the older citizens in mounting or passing down the steps the demand for a guard rail on the steps is growing, with the result that the county commissioners are said to be considering the installation of such a protection.

A guard rail up the center of the steps is being considered, and this would be a great aid to persons using the steps when they are in a dangerous condition.
